

Galintel®

NEW

THE NEXT EVOLUTION IN STEEL LINTELS

RENDABAR GEN III

Specifically designed and tested for use in residential builds with cement rendering.

LIGHTWEIGHT. STRONG. EASY TO HANDLE.

RENDABAR GEN III

ADVANCED DESIGN

The unique ribbed and offset slotted design allows Rendabar Gen III to firmly adhere to mortar and render. The design echos the trusted Galintel Solid Base Angle for reliable strength and ease of installation.

COMPLIANT & DURABLE

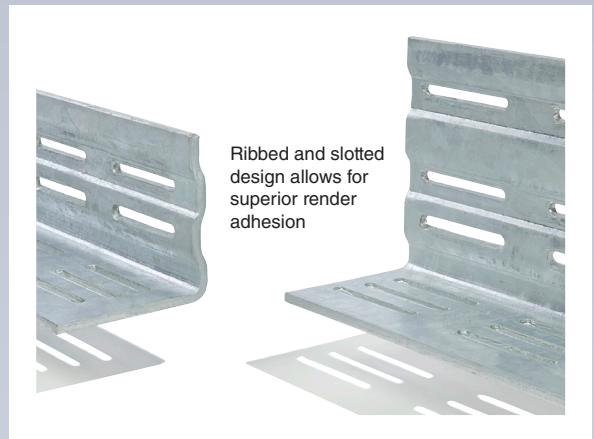

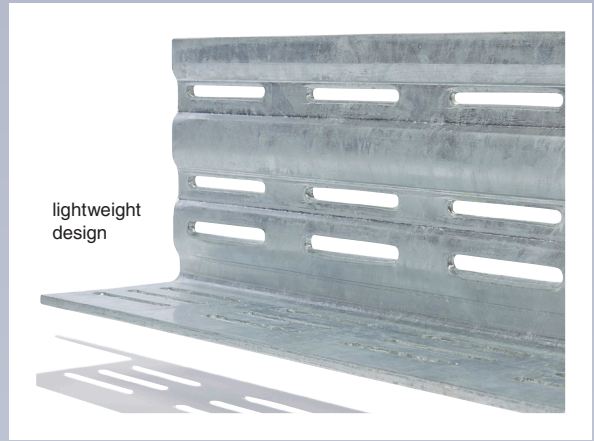

Manufactured and tested in accordance with Australian Standards, Rendabar Gen III complies with the NCC when correctly installed. Hot-dip galvanised in accordance with AS/NZS 4680:2006, it achieves the 'R3' durability classification as described in AS 2699.3:2020.

For identification and traceability, it also complies with the stamping and labelling requirements of AS 2699.3:2020 giving homeowners lasting peace of mind.

AUSTRALIAN MADE

Proudly made in our ISO 9001:2015 Quality accredited manufacturing facility in Coffs Harbour, NSW using high quality Australian steel from BlueScope.

SIZES	WEIGHT GUIDE (NOMINAL)	AVAILABLE LENGTHS (MM)
100mm (v) x 100mm (b) x 6mm	7.80 kg/m	900, 1200, 1500 1800, 2100, 2400
150mm (v) x 100mm (b) x 6mm	10.26 kg/m	1800, 2100, 2400, 2700, 3000, 3300, 3600, 4000
